

The Sidewinders | soul jazz

Soul jazz. We love it! The sensation caused by soul jazz sixty years ago, The Sidewinders bring it all back live on stage now. Straight from Amsterdam.

The Sidewinders play the best compositions of their heroes from the famous Blue Note label (Horace Silver, Lee Morgan, Donald Byrd) in the classical line up of trumpet, tenorsax and (extended) rhythm. And added some of their own compositions in the same vein. Music from the sixties, when modern jazz was influenced by gospel, latin and boogaloo and became funky. The groove as tight as the drainpipe-trousers, and the solo's as pointed as the shoes!

The Sidewinders played the **Havana Jazz Festival Havana** Cuba to great succes, **North Sea Round Town**, legendary clubs like the Melkweg (Jazzbop hosted by dj Graham B) and the North Sea Jazz Club, Goois Jazz Festival, Paris cafe's and lots of hip parties.
